

VANITA SPAGNOLO

*Tranquility Necklace and Earrings Set*

necklace: sterling silver chain, freshwater coin pearls, buttons

earrings: sterling silver findings, lolite, blue lace agate

“The unique necklace is hand crafted from some collected buttons and freshwater coin pearls. Pearls represent calming and peacefulness and the luster and creamy look of the pearls gives tranquility. Pearl is the official birthstone for the months of June. Pearls have also been known among Asian medicine systems for their healing properties for centuries. The buttons used in the piece alongside the pearls mimic the shape and color of the pearls and add texture, style, and design.

The earrings are also hand crafted and represent the tranquility of the ocean. The colors of the lolite and blue lace agate represent the water, and the shell represents the ocean and healing properties that salt water can bring. The lolite stone has long been used by Shamans in healing ceremonies and is known as a good healing stone. The blue lace agate in this piece is known to bring calming to the wearer and lessen nervousness.”
